

It's nice to meet you!

Introduction to Peekaboo Preschool

For over 11 years we've been welcoming families just like yours to Peek a boo preschool.

Your child's bright future starts with early education.

From curriculum to teachers, our approach to early education inspires a love of learning. Whether they're building blocks, cooking an imaginary sand feast, learning to read and write, your child will build confidence for life having fun with friends their age in our safe and supportive classrooms. They'll find teachers who believe in them and give them the freedom to be themselves, try something new, and make new friends.

Our curriculum

Our curriculum is based on the Montessori way of teaching integrated with the Sipro curriculum with a blend of jolly phonics a comprehensive programme from the UK which is widely recognised for its effective way to teach children to read and write in English.

The children are also engaged in music & movement, art, sensory, practical life skills, clubs and emotional and social learning.

We are here for you
